Full stack web developer with newly developed skills in HTML, CSS, Javascript, JQuery and a certificate in full stack development from Michigan State University. Strengths in creativity, problem solving, and teamwork. I have played a major part in successfully developing many computer programs with a strong focus on efficiency and user experience. My experience in continuous improvement and ability to work well with others makes me a great addition to any team.

Technical Skills:

HTML, CSS, Javascript, SQL, Python, Node, JQuery, Bootstrap, MaterializeCSS, API's, AJAX.

Projects:

Looking for Balance | [Repo](#) | [Deployed](#)

- Help to Balance priorities in life - Work, family, and school.
- Set three things in each facet you would like to accomplish each day. An inspirational quote to start your day, and a joke when you need a laugh. I was part of a the team that designed the concept and worked on the front end development.
- HTML, MaterliazeCSS, Javascript, JQuery, AJAX.

Weather App | [Repo](#) | [Deployed](#)

- Input a number of cities to view weather information of each.
- Used a total of 3 API's, linking two together, to obtain the desired information. Also included a GIF representing weather conditions of each selected city.
- HTML, Bootstrap, Javascript, JQuery, AJAX

Work Experience:

Weller Truck Parts

Continuous Improvement 2006 - Present

- Extensive use in microsoft programs such as outlook, word, excel, powerpoint.
- Facilitate and analyze data in regards to efficiency, inventory vs demand, product margin and profit, hours worked.
- Recommend and assist in incorporating improvement ideas in different facets and areas, such as work processes and computer programing.
- Recommend and assist in the creation of reports to facilitate information needed.
- Assist in designing, creating, and programing user friendly functions necessary for day to day efficiency and profitability.
- Purchase cores to sustain our business.
- Assist in creating and facilitating leadership development slides and leadership topics to help develop our leadership team.
